1.1

# Introduction

**Congratulations on receiving an award from XRPL Grants!**

**You probably want to tell everyone about your projects and experiences.**

Here are some tips and tricks to make sharing easy and accurate.

1.2

# Who's who?

Lorem ipsum

The **XRPL Ledger** is an open-source, public, decentralized blockchain powered by a global developer community. Companies, institutions, developers and individuals around the world use the **XRPL Ledger** for use cases across tokenization, payments, stablecoins, DeFi, and more.

**Ripple** is proud to build on and contribute to **XRPL** and to support other developers in the community. But please do not use the **Ripple** name, logo or any other part of the brand without explicit permission.

2.1

# Spread the Word

## Amplify on social media

We encourage you to share posts about your project and award on all relevant channels whenever you have news.

For example:

- Award Announcement
- Product launches and milestones reached
- Events you're attending or hosting

## Details matter! So, make sure to include:

- A high-level overview of what your project is or does
- Mention that you have received funding from **XRPL Grants**

2.2

# Do's & Don'ts

Use the right hashtags in your post for greater visibility and to be part of the conversation.

Hashtag: Preferred & Avoid

#XRPL	#XRPLedger	\$XRP	#XRPArmy
#BuiltOnXRPL	#XRPLGrants	#RippleXRP	#Ripple

## 2.3

# Get Social

Here are a few examples to inspire your own communication.

Hashtag: **Preferred**

- ✔ We're so excited to share that we've received funding from **#XRPLGrants!**
- ✔ PROJECTNAME has been awarded funding from **#XRPLGrants!**
- ✔ We're getting ready for our first release as part of the **#XRPLGrants** program. It will add a variety of features. Look out for the announcement over the next few days!
- ✔ Check it out! We're building PROJECTNAME on #XRPL. Funding secured through **#XRPLGrants!**

# Get the Look

There's a "**Built on XRPL**" badge made for everyone who develops on the **XRP Ledger**. Use it in your site, in posts or other communications.

On the next few pages you'll find a few versions and some basic guidelines for how to use it.

3.2

# Primary Badge

The Built on XRP Ledger badge must be consistently applied with a transparency background (png, svg, eps)

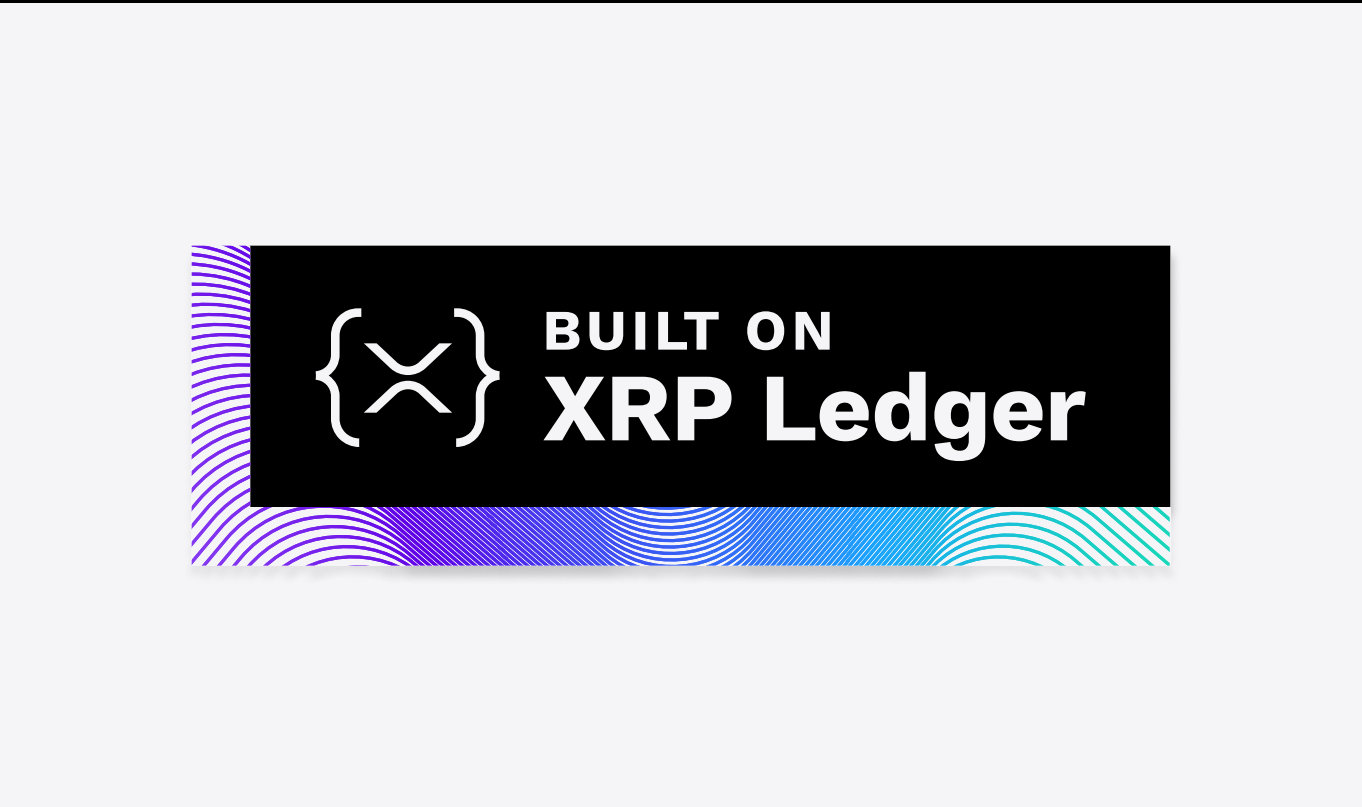

3.3

Badge Variations

The Built on XRP Ledger badge has both a horizontal and vertical lockup. Horizontal is preferred but when the primary badge doesn't fit your composition, use the vertical lockup.

Horizontal Lockup: Preferred

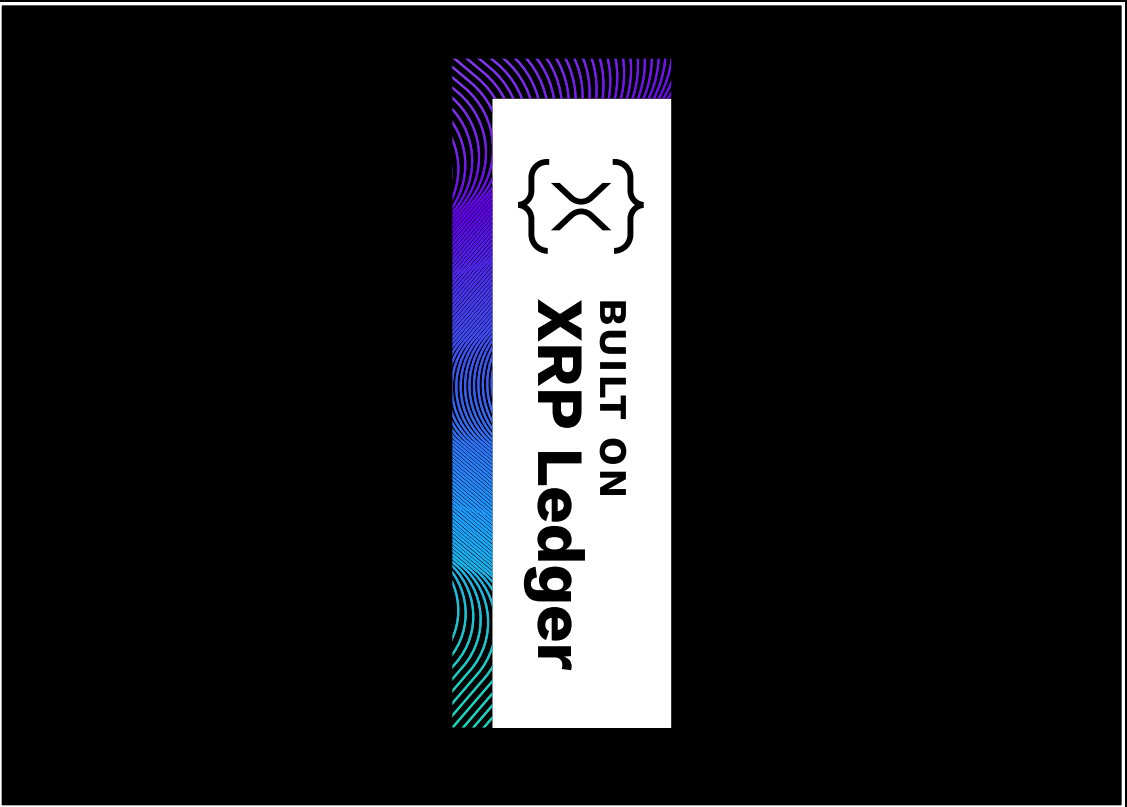

On light backgrounds, use the black badge.

Vertical Lockup

On dark backgrounds, use the white badge.

3.4

Badge Variations

Black and white versions for print or any colorless design guidelines.

Horizontal Lockup: Preferred

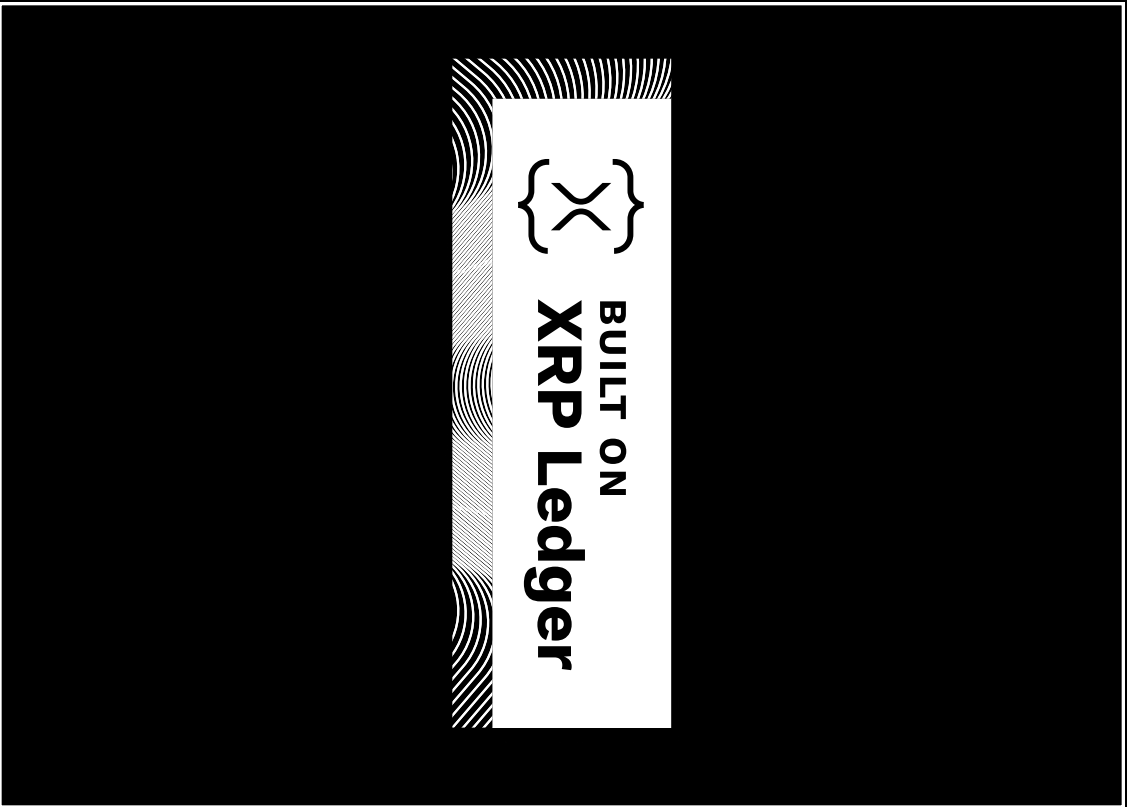

On light backgrounds, use the black badge.

Vertical Lockup

On dark backgrounds, use the white badge.

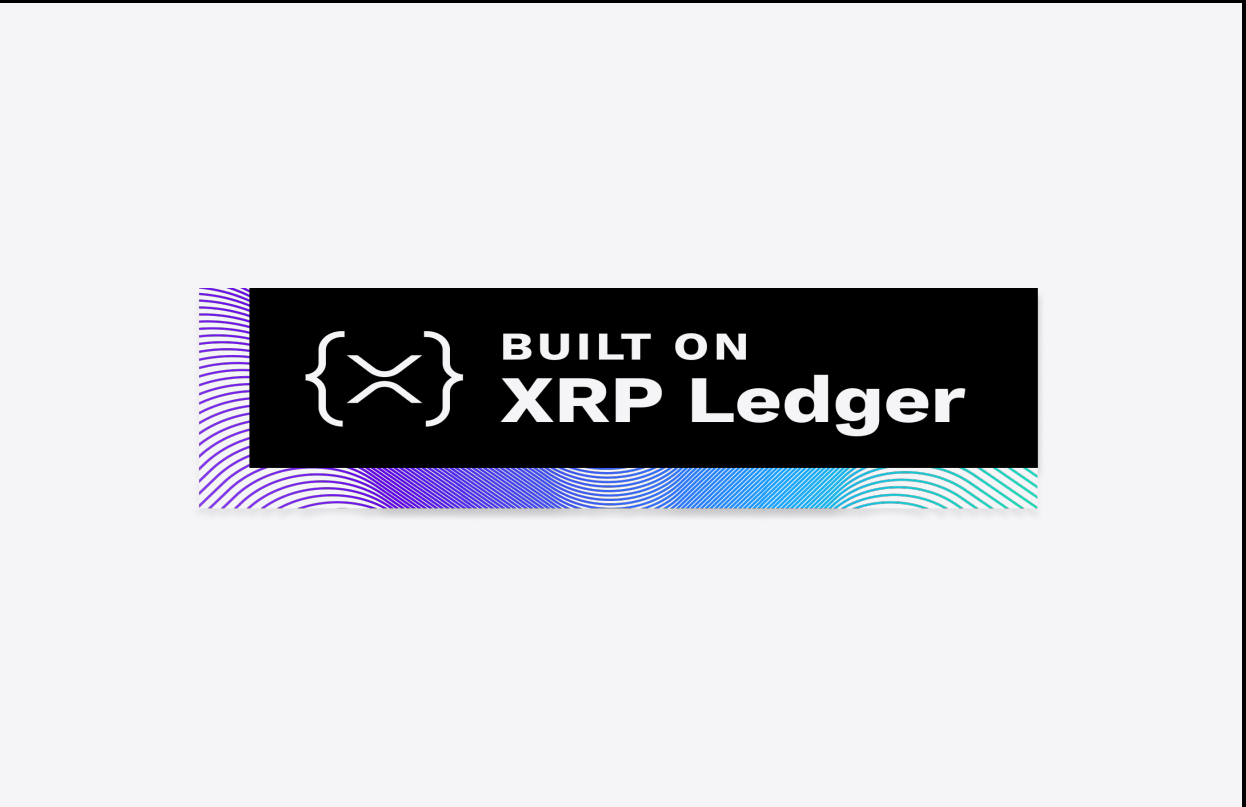

3.5

# Badge Misuse

The XRPL badge cannot be used to represent anything other than the XRPL badge itself. The badge must not be altered in any fashion.

Do not alter the color

Do not manipulate the badge

Do not remove the pattern

Do not add content or remove any parts

**We can't wait to see you posting about your project and showing off those "Built on XRPL" badges.**

If you have questions about the proper use of the badge and branding contact [info@xrplgrants.org](mailto:info@xrplgrants.org)
